 April 13 2008**

President, Bob Williams called the meeting to order and the March Minutes were read and accepted.

The Treasurer’s report was approved with an ending balance of \$2,225.86.

The Speaker today was Bill Behan, who has lived on Callawassie Island since 2000. He is the author of several books.

He discussed the life of Manning Kirk, who was an important Lowcountry soldier and entrepreneur, during the Civil War. Manning Kirk was born in 1829. He was a State Legislator and was active in the Militia in the Civil War. Manning Kirk ultimately became a Major but was largely underrated. Manning left detailed journals of his military service. Other interesting information outside of his military service includes personal facts such as; he had bright red hair and that he was deaf (quite uncommon in the military). He lived on Bonnie Doone and when he died in 1868 as the result of a sawmill accident he was buried at Bonnie Doone.

The meeting was adjourned.

Those attending were David & Bobbie Hiott, Bob Williams, Judy Ballard, Larry & Marsha Ulmer, Ed Sharp, Barbara Greene, Bill Behan and Deborah Toa.

Our next meeting will be held May 4<sup>th</sup> 2008.

May 4<sup>th</sup> 2008 will be a Business Meeting.

## WORKSHOP HIGHLIGHTS

June 14, 2008

Registration and refreshments began at 9:30.

President, Bob Williams welcomed our visitors to the Workshop and introduced the speakers.

He gave honorable mention to Millie Brunson, who had just received an Old St. Bartholomew Genealogical Chapter Pioneer Certificate on her Ancestor John Smyly.

Our 1st speaker was Dr. David Hiott, who spoke to us on the use of DNA in genealogy research. He mentioned how all men have some of the same y-DNA in cell nuclei, but over time, different migratory or ethnic groups pick up genetic mutations or changes, which allow differentiation and genetic identification. All females also once had similar non-nuclear DNA material in their mitochondria, but over centuries, various migratory groups have developed changes in these as well. (Men also have mitochondrial DNA, but it is only passed on by women through the egg cells.) Dr. Hiott used his own y-DNA studies to illustrate how one may show kinship, disprove other relationships, get around "brick walls" and look back at ancient ancestral surname (paternal) or maternal clans.

Our 2<sup>nd</sup> speaker was Dr. Antonio "Tony" Rafael de la Cova. He is "a Cuban by birth, an American by adoption and a Carolinian by choice." He has published two books "Cuban Confederate Colonel, the Life of Ambrosio Jose Gonzales," and "The Moncada Attack; Birth of the Cuban Revolution." The Castro regime is not happy at all with this new factual material. Dr. de la Cova has recently become a professor of Latin American History at UNC Greensboro.

Dr. de la Cova spoke to us about Colonel Ambrosio J. Gonzales. He covered many details on the family of Ambrosio Gonzales and his military experiences. He spoke of his early years of New York and Cuban education, his role as a revolutionary against Spanish rule of Cuba, his exile to America, and his marriage to a Colleton belle, Harriet Elliott. During the War Between the States, under General Beauregard, he was in charge of artillery for the defense of Charleston and of the Lowcountry's railroad to Savannah. It was pointed out that after the war Gonzales tried many occupations in many places, including a turn at rice planting at Social Hall Plantation in Colleton County. After a bittersweet later life, Gonzales did live to see his sons establish a new newspaper in Columbia, SC. Today it is the state's largest – **The State Newspaper**.

He was a very interesting speaker and many were so enthused that they stayed to talk and get their books autographed. A group from the College of Charleston came up to hear him speak, and their cameras were rolling. They are working on a documentary on the life of Gonzales. It is possible that you may see Dr. "Tony" on PBS in the near future.

Our 2nd session began at 2pm with research for visitors in our Genealogical Research Center, which is busting at the seams with all manner of reference material. We had 38 people attend our workshop. A special "thank you" to Dr. David Hiott and his wife Bobbi for providing accommodations for Dr. de la Cova and his wife, Dr. Carlana de la Cova, an anthropologist.
